AFC-HOLCROFT RECEIVES LARGE FURNACE ORDER FROM A SUPPLIER OF AEROSPACE COMPONENTS

(August, 2009) AFC-Holcroft, one of the largest manufacturers worldwide of Thermal Processing Systems, received an order from SIFCO Forge Group, a division of SIFCO Industries, Inc., a supplier of forgings to the aerospace industry.

The order is for a Rotary Reheat Furnace with an operating temperature of 2300°F and a net load capacity of 8,000 pounds per hour.

"We are very excited to establish new customer relationships and provide the latest technology available to a wide range of products for the thermal processing industry," says Leonard P. Goodlesky, Sales Engineer at AFC-Holcroft. "We will continue to invest in the latest technologies in order to enable our customers to receive the greatest benefit for their investment."

AFC-Holcroft has more than 90 years of Thermal Processing experience. The company manufactures turn-key Thermal Processing Systems for applications including: Re-Heat & Forge, commercial heat treating, bearings, automotive, aerospace, military, aluminum heat treatment, gear manufacturing, fastener manufacturing, and alternative energy industries.

AFC-Holcroft is one of the world's largest manufacturers of Thermal Processing Systems. The company has a global reach, with organizations in the United States, China, Russia, Argentina, Brazil, Australia, India, Mexico, Italy, Spain, and Korea, including manufacturing means in many of these countries.
